

Energy Water Cup is just the manifestation of the most high-end nanometer technology and natural energy minerals, bringing out the nanometer energy stone of "super strength" cancer-killing power, turning the ordinary water into the water with Micro-electrolysis per-treatment installations. First you need know the five main functions of Nano Energy Water Cup.

The Nanometer energy cup is able to turn the ordinary water into the health water of micro-electrolysis with five main functions:

1. Alkalescency (weak alkaline condition): Dissolve acid, eliminate toxicant and enhance immunity

It can quickly neutralize the toxins, maintain acid-base balance, and control the constipation, diarrhea, gastrointestinal problems, diabetes, cardiovascular and Cerebrovascular disease, gout, calculus, arthritis and other diseases caused by acid poisoning and acidosis.

2. Negative potentials (antioxidant): remove the excessive free radicals
It's able to take effective prevention and combating against senile plaques, Parkinson's, cataracts, arterial sclerosis, cerebral apoplexy, malignant change of cell, etc. caused by the free radicals.

3. Small molecules: reduce blood lipid, blood pressures and candy
With super-strong dissolution power, emulsifying power, and penetrating power, it's able to have the fat and cholesterol in blood vessels and gastrointestinal parts dissolved and emulsified, expel the waste, dissolve the cholesterol, lower the blood viscosity, and reduce the three-high (high blood fat, candy and pressures). It develops miraculous effects on arteriosclerosis, cerebral thrombosis, cardiovascular disease, fat-burning and slimming, etc.

4. To complement the elements of life: Trace elements and minerals
The aerospace ceramic cores adopted by the Nano energy Cup is able to release iron, zinc, iodine, calcium and other various minerals and trace elements that are essential to the human body, all of which are in ionic condition and they are not only extremely easily absorbed into the body, but also can add a variety of micro - elements, catalyzing and activating the driving force of life!

5. High in oxygen: Improve sleep quality

The aerospace ceramic cores adopted by the energy Cup has countless small crystalloids, and will be permanently releasing negative ions, activating cells, purifying the blood, regulating gastrointestinal system, improving sleep, implementing the oxygen needed by human brain and muscles. Therefore, a couple of cups per day will make one's mind stay fresh and energetic.
